AMI WILLIAMSON Beautiful and personal new album *The Quilt* out May 25

Ami Williamson's third studio album 'The Quilt', is one of the singer-songwriter's most personal releases and will be available from Friday May 25.

Packed with the storytelling that Ami is known for, 'The Quilt' reflects Ami's life as a mother, friend, supporter of women and daughter of a famous father, and helps to paint a picture of what she values most in life.

Ami said, "It's often said you should write what you know and I wanted to write songs about things in life that typically go unrecognised and can be under-valued. These are the quilts that keep us warm, the craft of raising children, the longing for our children not to grow up too quickly, the depth of female friendships and that many older women wear pearls - fabulously! The Quilt, a very personal album, is my attempt at spotlighting these wonderful and complex things in life."

You can view the video for the title track [here](#).

A regular at folk festivals across Australia and with a nod to some of the crowd favourites from Ami's much loved "One Woman Show", the full track listing for 'The Quilt' is:

1. Don't Grow Up So Fast
2. Girlfriends
3. Pearls
4. The Quilt
5. Proud
6. Nothing Next To You
7. Your Biggest Fan
8. How Does That Make You Feel
9. I Got A Dress – recorded live at Fairbridge Festival, WA
10. I Think My Physio Is Into Me – recorded live at Fairbridge Festival, WA

While Ami's roots are firmly in the tradition of singer/songwriter, her richly diverse upbringing had Ami taking the stage not only in opera and classical, but also touring with her father, legendary country music artist John Williamson.

Throughout May and June Ami will be on [tour](#) with folk legend Eric Bogle, followed by solo shows for the remainder of the year.

'The Quilt' is available to purchase via Ami's [website](#) and through online retailers.
